11:00 - 12:30

Extra-Nodal Lymphoma session (Update)

Chair: René-Olivier Mirmanoff (Lausanne), Juliette Thariat (Nice)

Guest speaker P. Gaulard (Paris)

Pathology of extra-nodal lymphomas

Guest speaker Khalidoun Kerrou (Paris)

Metabolic imaging in extra-nodal lymphomas

Review of RCN experiences

NHL of the liver

Nhu Hanh To (Paris)

G. Ugurluer (Adana)

12:30 - 13:00 Lunch - Buffet

AFTERNOON 13:00- 16:00

13:00-15:30

Breast rare tumors session

Current knowledge, RCN contribution, Recommendations and Guidelines

Chair: Joseph Gligorov (Paris), Enis Ozyar (Istanbul)

Guest speaker N. Radosevic (Clermont-Ferrand)

Rare breast tumors biology: what do we know?

RCN Experience

Phyllode tumors and sarcoma of the breast

G. Bousquet (Paris)

Lymphoma of the breast

B. Gutiérrez (Barcelona)

Adenoid cystic carcinoma of the breast

P. Tsoutsou (La-Chaux-de-Fonds)

Primary follicular and marginal-zone lymphoma of the breast

M. Dzhugashvili (Madrid)

Guest speaker R. Rouzier (Paris)

Breast implant-associated anaplastic large cell lymphoma

Guest speaker M.S. Moran (Yale, USA)

Implication of pleomorphic LCIS at the margins, what do we know?

AFTERNOON

15:30-16:00

Round Table

RCN manuscript: «The best practice in rare tumor of the breast»

Chair: Y. Belkacemi, M. Krengli, P. Van Houtte

Concept, table of contents and section preparation of "The best Practice in Rare Breast Cancers"

16:00

Conclusion

Free evening

Friday November 25th, 2016 (Room : Coronis)

MORNING 8:30- 13:00

8:30-10:00

New radiation therapy technologies for rare tumors and paediatric malignancies

Chairs: David Azria (Montpellier), Yazid Belkacemi (Paris)

Introduction

Why proton therapy for rare tumors?

M. Ozsahin (Lausanne)

Paediatrics

Proton therapy in the management of paediatric tumors

J.L. Habrand (Caen)

Adults

Proton therapy in Chordomas)

H. Mammari (Paris)

Chondrosarcoma of the skull base: French experience on efficacy and safety of proton therapy

L. Feuillet (Paris)
